

Remarks

The specification has been amended to recite the claim for priority; to add headings and subheadings recommended by the United States Patent and Trademark Office; and to correct minor translation errors, including correct numerical usage. The claims have been rewritten to reflect current U.S. practice and to eliminate multiple dependent claims.

The claims have been found by the International Search Authority to meet all requirements of novelty, inventive step, and utility. Early favorable consideration is therefore respectfully requested.

Respectfully submitted,
Christoph Briehn et al.
